@Zainqalandar   Zain Qalandar

SUMMARY

Full-Stack Developer (MERN) Front-end focused with 2+ years hands on experience building responsive web apps using React and Next.js, and growing professional experience with Node.js, Express and MongoDB for back-end development. Comfortable building RESTful APIs, integrating front-end with back-end services, and deploying full stack applications. Strong UI/UX sense (Tailwind, MUI, Chakra).

SKILLS

- ★ **Languages & Frameworks:**   JavaScript (ES6+), Node.js, Express.js, React.js, Next.js
- ★ **Databases:** MySQL, MongoDB (Mongoose) CRUD, schema design, basic aggregation
- ★ **UI Frameworks:** Tailwind CSS, Material UI (MUI), Chakra UI, Responsive Design
- ★ **State & Data:** Redux Toolkit, Context API, REST API integration, Axios
- ★ **Version Control & Deployment:** Git, GitHub, Vercel (basic)
- ★ **Backend Services/Tools:** Firebase, Appwrite (experience with integration), Postman
- ★ **Version Control & Deployment:** Git, GitHub, Vercel (basic)

WORK EXPERIENCE

React Developer — Kodestudio Software, Sheikhupura

August 2023 – December 2024

- ➔ Implemented responsive, accessible UI components and pages using React & Next.js.
- ➔ Converted Figma designs into pixel-accurate, production-ready interfaces with Tailwind / MUI.
- ➔ Built reusable component patterns and integrated front-end with REST APIs using Axios.
- ➔ Improved front-end performance and participated in code reviews to maintain quality.

Freelance Front-End Developer & Web Designer — Local Clients

Dec 2024 – Present

- ➔ Delivered end-to-end front-end projects: UI design, component development, deployment and maintenance.
- ➔ Produced design mockups/prototypes (Figma) and implemented them in React/Next.js.

➔ Worked directly with clients to refine UI/UX and ensure responsive cross-device experiences.

PROJECTS

Web-Kayana (KodeStudio) — Next.js, Chakra UI

- Developed responsive UI components and connected front-end with APIs.
- Focused on accessibility and performance.
- Live: hirekayana.com

Al-Huda Project – Quran Web App

- Built a Quran web application using **React (Next.js) and Tailwind CSS** with a clean green UI.
- Designed with **well structured components** and reusable layouts for maintainability.
- Implemented features like **Surah navigation, sidebar, and custom audio player** with responsive design.
- Live: alhuda.com

Clone Projects (Learning & UI practice)

- **CNN Clone, Google Keep Clone, Omnifood Clone** Focused on pixel-perfect UI, responsive patterns, and component reusability.

Work on 50+ diverse web development projects during my experience as developer

EDUCATION

- ❖ **Bachelor of Science in Information Technology**
  Government Graduate College, Civil Lines, Sheikhupura
  August 2021 – Present (Currently in 5th Semester)

- ❖ **Intermediate in Computer Science (I.CS)**
  Hajvery University & Colleges, Sheikhupura (BISE, Lahore)
  August 2016 – August 2018

- ❖ **Matriculation in Computer Science**
  Govt. Comprehensive High School, Sheikhupura (BISE, Lahore)
  August 2014 – August 2016
